

Simply
elegant

ergonomic & intuitive ●

single-handed operation ●

award-winning design ●

FIREPHANT by **NAPFIRE** is a uniquely-shaped powder fire extinguisher with an elegant touch. Its innovative and user-friendly design has clinched a Red Dot Design Award in 2012 (Swedish Industrial Designer: Jonas Forsman and Lars Wettre), transforming a life-saving fire safety product into a work of art.

Whether it is an eye-catching signal red or a minimalist discreet white, the aesthetic appeal of this exclusive top-class product lies in its perfect complement to any living area or kitchen, like a beautifully-crafted home accessory.

The handle is ergonomically designed for single-handed operation, comfortable for both left and right-handed users. It operates with just a simple push of a button.

As it is small, portable and lightweight, it is easy to manoeuvre, ideal for use in car or boat.

PATENTED WALL BRACKET

Simply hold the extinguisher in one hand and click into place. Release it quickly during emergency.
